

## PlastiKote Plastic Paint 400 ml

Ord.-no.: 010607

### Technical Information

Breathe life into tired plastic surfaces with PlastiKote Plastic Spray Paint. Plastic furniture can fade over the years, which is why our Plastic Paint is designed for use on rigid plastic surfaces. Suitable for use with outdoor furniture, plastic play items, storage equipment and more. Discoloured or faded plastic in your bathroom or kitchen? Give it a new lease of life. Bored of the same old plastic chairs? Choose a bold new colour. Or if your plastic item has just faded unevenly over the years, use our Plastic spray paint to give a neat and uniform finish .

#### Quality & properties

- No primer required
- Gives a tough durable finish
- Excellent flow
- Designed for direct use on various plastics
- Good resistance to outside influences

#### Physical & chemical data

- Base: Alkyd resin
- Colourname: White
- Degree of gloss: gloss, >75 GU
- Dust dry: 40-60 min
- Dry to touch: 3-4 h
- Completely dry: 24 h
- Overcoatable: 24 h
- Surfaces: plastic
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Temperature Resistance: White 110 °C
- Content: 400 ML

#### How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface.
- The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 10 to 25°C. Before use, shake the aerosol for 2 minutes and spray a sample. Distance to the surface to be treated approximately 25 to 30 centimeter.
- Apply the spray paint in several thin layers. Before applying the next layer, again shake the aerosol. When desired, after drying a primer and a lacquer can be applied.
- After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

#### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

#### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

#### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 30, 2024 – This release replaces all eventually earlier issued versions.
