

## PlastiKote Rust Effect 400 ml

Ord.-no.: 117001

### Technical Information

With PlastiKote Rust Effect, ordinary decorative items can be transformed into rustic statement pieces. Add an artistic rusted effect to plant pots, furniture, photo frames and more with a single spray. Perfect for adding decorative accents to an industrial-inspired home or garden, PlastiKote Rust Effect spray paint gives a deep, rich metallic finish and good coverage with a single coat. Suitable for indoor and outdoor use, with a quick-drying finish and an authentically dusty rust-like texture that will look stylish in any home.

#### Quality & properties

- Metallic rust effect
- Multi-Purpose
- Fast-drying
- Special, rough texture
- Very good coverage

#### Physical & chemical data

- Base: Acrylic resin
- Colourname: Rust
- Degree of gloss: mat, 10  $\pm$ 2 GU
- Efficiency: 400 ML – 2,23 m<sup>2</sup>
- Dust dry: 5-10 min
- Dry to touch: 20-30 min
- Completely dry: 2 h
- Overcoatable: 2 h
- Surfaces: paper mache, stone, terracotta, wicker and wood
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 8300/20 bar
- Content: 400 ML

#### How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface.
- The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 10 to 25°C. Before use, shake the aerosol for 2 minutes and spray a sample. Distance to the surface to be treated approximately 25 to 30 centimeter.
- Apply the spray paint in several thin layers. Before applying the next layer, again shake the aerosol. When desired, after drying a primer and a lacquer can be applied.
- After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

#### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

#### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

#### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of May 30, 2024 – This release replaces all eventually earlier issued versions.
